

**Get Connected Computer Camp
Final Report to the Buckeye Education Foundation**

Camp Attendance:

Session 1: Grades 3 and 4, 20 students attended. There were 10 boys and 10 girls. There were five “no shows” who signed up but did not attend camp. One girl did not attend the last week of camp. Students worked in groups of five and each of the groups made a movie using the program Windows Movie Maker, digital images, and images from the internet. Some of their images were edited using Photoshop.

Session 2: Grades 5 and 6, 8 students attended. There were 3 girls and 5 boys. All students attended all sessions. Students worked in three groups to make a movie. Each group used digital photography, images from the internet, and images that were edited by Photoshop to create their movie.

Students in both groups visited many fun (and teaching) websites. Students practiced keyboarding at www.senselang.com, they played games and did learning activities at www.funbrain.com, they built a robot at www.miniusa.com, they learned how to use the network, and how to save to the network. They learned how to copy and paste pictures and other information from the internet into a document and then use that for their movies. The students made e-cards and sent them to their school principal. They learned the importance of following directions. Students were actively engaged in activities for the full time they were in session. They worked together and independently, and they helped each other as they learned new skills. In addition to these skills, students learned to use the digital camera and how to download pictures and save them to the network.

The older group of students also did an activity that required them to use the internet to plan a family vacation, given a budget of \$2500.00. They had to figure out the distance of the trip, the travel costs, meal costs, lodging costs, and any admission fees. They enjoyed using the internet to find out about the location they wanted to travel to and discovered many new things as they worked on this activity.

Total cost for the program was: \$147.66

Each student designed their own camp T-shirt which was given to them on the last day of camp. Each student also received a CD copy of the camp movies, and had popcorn, soda, pretzels, and sour patch kids on the last day as we watched the movies.

T-shirt cost was: \$58.71

CD cost was: \$25.94

T shirt transfers were: \$38.91

Soda: \$8.00

Popcorn: \$6.00

Pretzels: \$4.28

Sour Patch Kids: \$5.83

Students evaluated their camp experience on the final day. That evaluation summary is attached.
